1. Saiteja Alapati, alapatsj@mail.uc.edu
2. Sushma Sai Vejandla, vejandsi@mail.uc.edu
3. Indu Priya Inala, inalaia@mail.uc.edu
4. Sai Kumar Kolleti, Kolletsr@mail.uc.edu

Overview of this project:

The WAPH Team Project prioritizes full-stack web development technologies and applies secure programming and hacking methods in order to construct a "miniFacebook" web application. Agile development methodologies will be followed throughout the project to guarantee effective iterations and evolution.
